### **Calculating You**

You were on my mind at least  $9/10$ ths of yesterday and I'm pretty sure that  $5/6$ ths of my dreams are about you. The other day I was  $3/4$ ths positive that you are the only reason I breathe anymore but I was also  $5/7$ ths certain that sometimes I don't blink because I don't want to miss the sight of you.  $1/5$  of the time I wonder if you calculate fractions about how often you think of me and then  $56/131$ ths of the time I question why I calculate fractions. I'm  $10/12$ ths positive it's because I'm crazy over you but  $3/8$ ths sure I'm just plain crazy.
